

**Request for Visiting Program Participant:  
Part I**

**INSTRUCTIONS**

**— To be completed by the Institute/Center —**

In order for the Division of International Services (DIS), Office of Research Services (ORS), to process your Institute or Center's (IC) request for a selected foreign national scientist to participate in the NIH Visiting Program (VP), please complete this form. **In addition, if this request is for a scientist new to the NIH or a returning scientist (i.e. one who previously terminated or ended his/her NIH stay), please have her/him complete "Part II" of this form.** Instruct her/him to return Part II of the form to you, along with the required supporting documents. Upon completion of all applicable parts, please send this form, along with all required supporting documents, to the DIS.

Read these instructions carefully to properly complete the form. Type or print clearly. All questions **MUST** be answered. **If not applicable, write "N/A."** If you need more space to complete an answer, attach a continuation sheet. If a continuation sheet is necessary, write the scientist's name and date of birth at the top of each sheet and indicate the section to which the answer refers.

**GENERAL INSTRUCTIONS**

**A. Type of Request**

Check the appropriate type of request, based on the NIH Designation selected in section B.

**B. Designation**

Check the appropriate NIH Designation for your foreign national scientist. Note: If this request is for a Guest Researcher or Special Volunteer designation, you must also complete and submit the NIH Form 590.

**C. Foreign National Scientist Candidate**

Enter the name as it appears on the passport. Do not use initials, even for middle names. The entire name must be spelled out. For the date of birth, check dating formats and enter in the month/day/year format.

**D. Proposed Dates**

Enter the dates of your foreign national scientist's stay at the NIH. If this visit is NOT for a consecutive time period, attach a continuation sheet describing the dates of the intermittent visits—even if the dates are tentative. If these details are not disclosed, the DIS may use an immigration category that could bar the foreign national from timely returning to the U.S.!

**E. Institute or Center (IC) Information**

Enter the details about the sponsoring IC.

**F. Work Site Information**

Enter the location where your foreign national scientist will be placed. List the primary site and additional work site, if any. If there is more than one additional work site anticipated (even if temporary), please attach a continuation sheet.

**G. Work Schedule**

Check the appropriate work schedule.

**H. Funding Information**

Enter the funding that will be used to support your foreign national scientist during her/his stay at the IC. If the IC is funding the visit (e.g. giving a stipend or salary), the IC must ensure that it is paying within the established NIH stipend/salary/per diem/etc. levels.

**I. Research Program**

Describe the research program that your foreign national scientist will undertake at the IC. Provide the general research area (e.g. genetics, biochemistry) and a full description of the research program and experience to be obtained (using laymen's terms as much as possible). In addition, if the scientist is appointed to a Full-Time Equivalent or FTE designation (e.g. Research Fellow), please complete the "FTE Supplement" on page four.

**J. Patient Contact (for M.D.'s only)**

The level of patient contact must be specified in advance, and may not be changed at any time during the award/appointment/assignment dates. If patient contact is anticipated, it must be requested at this time.

Check the appropriate level of patient contact, complete the information, and attach the required documents. Be sure to review the DIS Technical Advisory 4 and 4a for a summary of patient contact by foreign national scientists, including instructions for the "Four-Point Memorandum" required for incidental patient contact: <http://dis.ors.od.nih.gov/advisories/techadvisories.html>

NIH-sponsored J-1 Exchange Visitors are limited to incidental patient contact. Additionally, non-FTE designations are generally prohibited from having full patient contact (exceptions on a case-by-case basis). Guest Researchers are not permitted any level of patient contact.

- a. No patient contact: Self-explanatory.
- b. Incidental patient contact: Enter the information requested. Provide a copy of the foreign national scientist's ECFMG (Educational Commission for Foreign Medical Graduates)

certificate and the original “Four-Point Memorandum” (prepared as per DIS Technical Advisory 4a). Note that a Four-Point Memorandum is not required for renewal purposes if there is no change in the program or sponsor/supervisor. If this is the case, check the appropriate box.

- c. Full patient contact: Enter the information requested. If your foreign national scientist is in an NIH clinical training program, enter the name and ID number (obtain from <http://www.cc.nih.gov/training/gme/programs.html>); ACGME-accreditation (Accreditation Council for Graduate Medical Education); and PGY (post graduate year) level.

Provide a copy of your foreign national scientist’s ECFMG certificate; a copy of medical licensure in the U.S. and/or country abroad; and evidence of USMLE (U.S. Medical Licensing Examination) or equivalent examinations, i.e. Parts I and II of FLEX (Federation Licensing Examination) or Parts I, II, and III of NBME (National Board of Medical Examiners).

#### **K. Certification**

Type/print the name of the signer with signature and date. Only provide those approval signatures that are required by your IC’s delegation of authority.

Approval by the Office of Intramural Research (OIR), Office of Director (OD), is required for all exceptions to program provisions. If an exception is necessary, describe the need for the exception and send this request and justification to the OIR/OD before submission to the DIS.

#### **WHAT TO SEND**

Submit this completed form (Part I), signed by all appropriate IC officials, as well as “Part II” of the form, completed and signed by the foreign national scientist.

In addition, also submit the required supporting documentation according to the NIH designation selected in section B. Supporting documentation requirements can be found from the DIS checklists: [http://dis.ors.od.nih.gov/forms/01\\_forms.html#checklist](http://dis.ors.od.nih.gov/forms/01_forms.html#checklist)
